Grandeur Fasteners, Inc.: **Your Domestic Source** **For Custom Cold** **Headed Products**

Grandeur Fasteners, Inc. is a family owned and run company that bought their first cold heading machine in 1975. Since that day, they have strived to maintain the highest standards of excellence in manufacturing and production. Their goal as a company has always been to build mutual confidence and respect in their relationships with their customers. This requires that they join with their customers and work together as partners to engineer, build and deliver the highest quality and most affordable products possible. As a domestic manufacturer of specialty and exotic fasteners and components, Grandeur looks forward to the opportunity to help accomplish your goals while satisfying your complete fastener needs.

Grandeur Fasteners, Inc. is an approved source to many government agencies, industrial OEM's, and distributors. Their Quality Management System is registered and certified to ISO 9001:2015 and is compliant to AS 9100D. They are also a QSLM and QSLD for Level 2 and Level 3 Fasteners for the government.

Grandeur Fasteners, Inc has many new and exciting things happening. Please contact them today and let their sales department and engineering team evaluate your current products for cold heading suitability, or assist you in the design of new products. They work extensively with most of the exotic materials such as: Aluminum, Brass, Copper, Nickel Alloys, Monel, Silicon Bronze, and Stainless Steel. Their size capabilities range from 3/32" to 3/4" in diameter, and up to 9" in length. The more special the better! Contact them today!
